

Authorised Distributor for **Panasonic Solar Panel**

AHMEDABAD • NORTH GUJARAT • SAURASTRA • KUTCH

Sarjan
Construction Pvt. Ltd.
(SOLAR DIVISION)

Greetings from Sarjan Construction Pvt. Ltd.

We are pleased to introduce our company as well known for Civil & Electrical engineering works for Government as well as Private organizations. We have vast (30 years) experience in this business & more than ever 10 years experience in Solar Power Project field.

Also we want to inform you that we are Authorized Distributor of Panasonic Solar modules in Ahmedabad, North Gujarat, Saurashtra & Kutch region.

We have given salient features of Panasonic Solar Modules below:

Panasonic Poly-Crystalline Solar PV Modules

- High Module Conversion Efficiency
- Positive Tolerance
- Excellent Weak Light Performance
- Compact and Durable Frame Design
- Excellent Temperature coefficient

Panasonic Mono-Crystalline PERC Solar PV Modules

- Advance PERC Technology
- High module Conversion Efficiency
- High PID Resistant
- With standing harsh environment
- Excellent Temperature coefficient

Panasonic has launched "Make in India" modules which is international quality product available now.

Please find the technical data sheets of solar modules attached herewith and feel free to contact us for any further information required if any

Awaiting for your favorable response & business support

Thanks & Regards

Sarjan Construction Pvt. Ltd. (Solar Division)

Why Solar ?

1. Save Electricity & Ultimately Money
2. Most Secure Investment
3. Low Maintenance, Less of a Hassle
4. You start reaping benefits from 1st day of installation
5. Perfect approach for power production in remote areas
6. Solar Energy is Abundant
7. There is no cost of sunshine
8. Replenish-able source of Energy
9. Reduce Carbon footprint
10. Become energy sovereign

No. of Years in Solar Industry

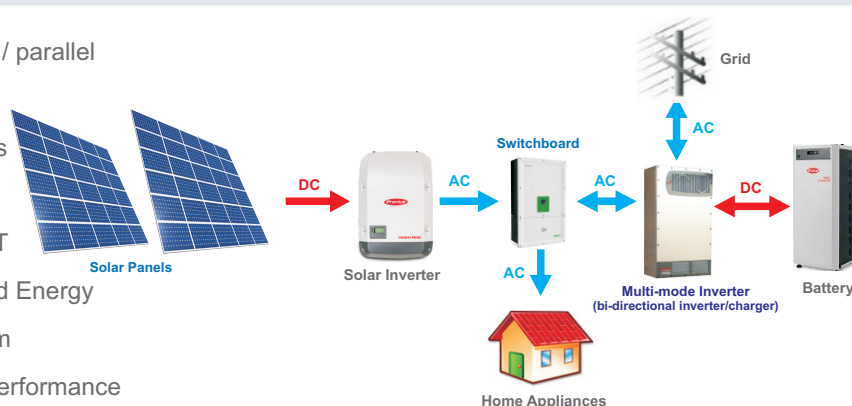

Panasonic has over 40 years business experiences and over 20 Years of production knowledge

SOLAR POWER GENERATING SYSTEM

- Solar Power generating systems converts sunlight to Electricity
- System comprises of

- Solar modules - Connected in series / parallel
- Mounting structure - Ground / Roof
- DC Cables - Interconnecting modules
- Inverter - Converts DC to AC
- AC Cables - Connecting system to LT
- Energy meter - to measure generated Energy
- Battery - For storage if off-grid system
- Monitoring system - Online system performance

- Solar Power generating systems can be Ground mounted or Roof mounted
- System can be off-grid (battery storage) and ON-GRID (interacting with Grid supply)

Sarjan Construction Pvt. Ltd.
